ABOUT ME

I am Ahmed Ghulam, a Web Developer and UI/UX Designer with extensive experience in developing digital systems and smart applications that serve various fields such as business, education, aviation, law, and e-commerce.

I focus on precision and professionalism, combining creativity and coding to build comprehensive technical solutions that align with market demands and continuously enhance client efficiency.

My work goes beyond coding systems—I actively contribute to project requirement analysis, interface design, and delivering smooth, exceptional user experiences. My key achievements include developing ERP systems, educational platforms, delivery applications, and advanced digital stores.

Ahmed Nabeel Ghulam

Expert Designer and Web Developer

VISION

To become a pioneer in the field of smart and customized digital systems development by delivering modern technological solutions that drive business transformation and improve users' lives.

I strive to be the first choice for clients seeking innovation, quality, and technical excellence by creating integrated digital experiences that contribute to accelerating digital transformation both locally and globally.

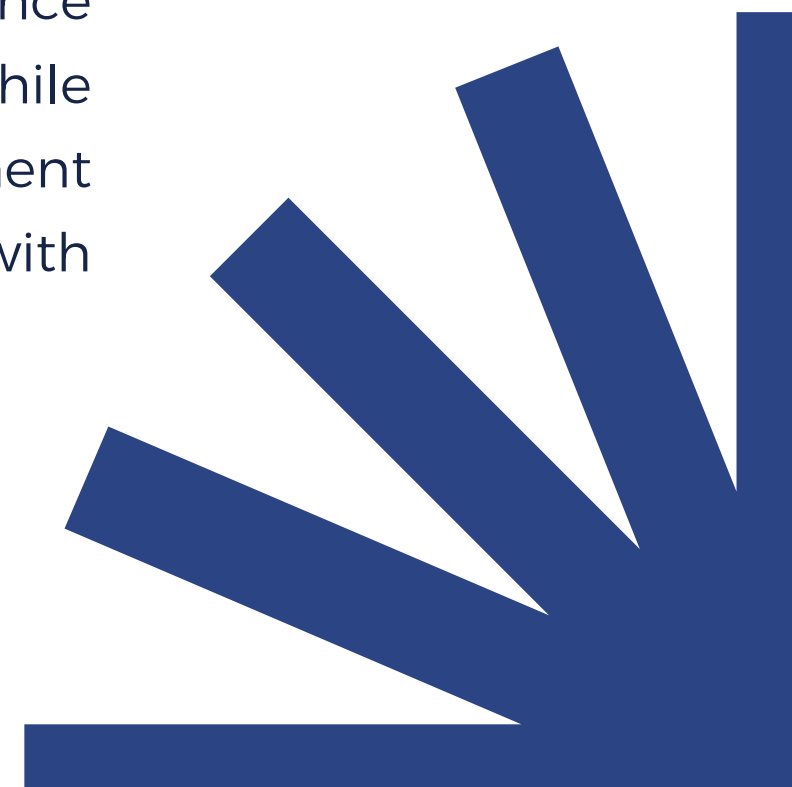

MESSAGE

My mission is to deliver innovative technological solutions that help individuals and organizations achieve their goals efficiently, by developing smart systems that combine quality, ease of use, and an exceptional user experience.

I am committed to building high-value tech projects that enhance performance and drive digital transformation, while maintaining continuous improvement and fostering long-term relationships with clients.

EDUCATION BACKGROUND

High School

I studied at Prince Sultan Educational Complex High School, where I earned my high school diploma. During this phase, I focused on developing both my academic and personal skills, and participated in various school activities that helped strengthen my teamwork, leadership, and effective communication. This experience played a key role in shaping a well-rounded personality and refining my social skills and sense of responsibility.

Collage / University

I enrolled at King Abdulaziz University, majoring in International Business Administration. Throughout my studies, I gained in-depth academic knowledge and practical skills through coursework and hands-on projects. I also benefited from training and professional development opportunities, which helped me build a solid foundation for understanding the technical and managerial challenges in my field and pursuing my professional ambitions.

Important courses

I have attended several specialized training courses to enhance my skills, including an Advanced Web Development course covering HTML5, CSS3, and JavaScript, as well as UX and UI design courses to improve design quality and usability. Additionally, I completed courses in Digital Project Management and Digital Marketing, focusing on data analysis and achieving business goals efficiently and effectively.

WROKS

GALLERY

INTEGRATED ERP SYSTEM FOR ENTERPRISE MANAGEMENT

📌 Overview:

A comprehensive centralized ERP system designed to manage all departments within an organization (Finance, HR, Procurement, Sales, Inventory). It is highly flexible and customizable to fit the specific needs of any industry.

✅ Core Modules:

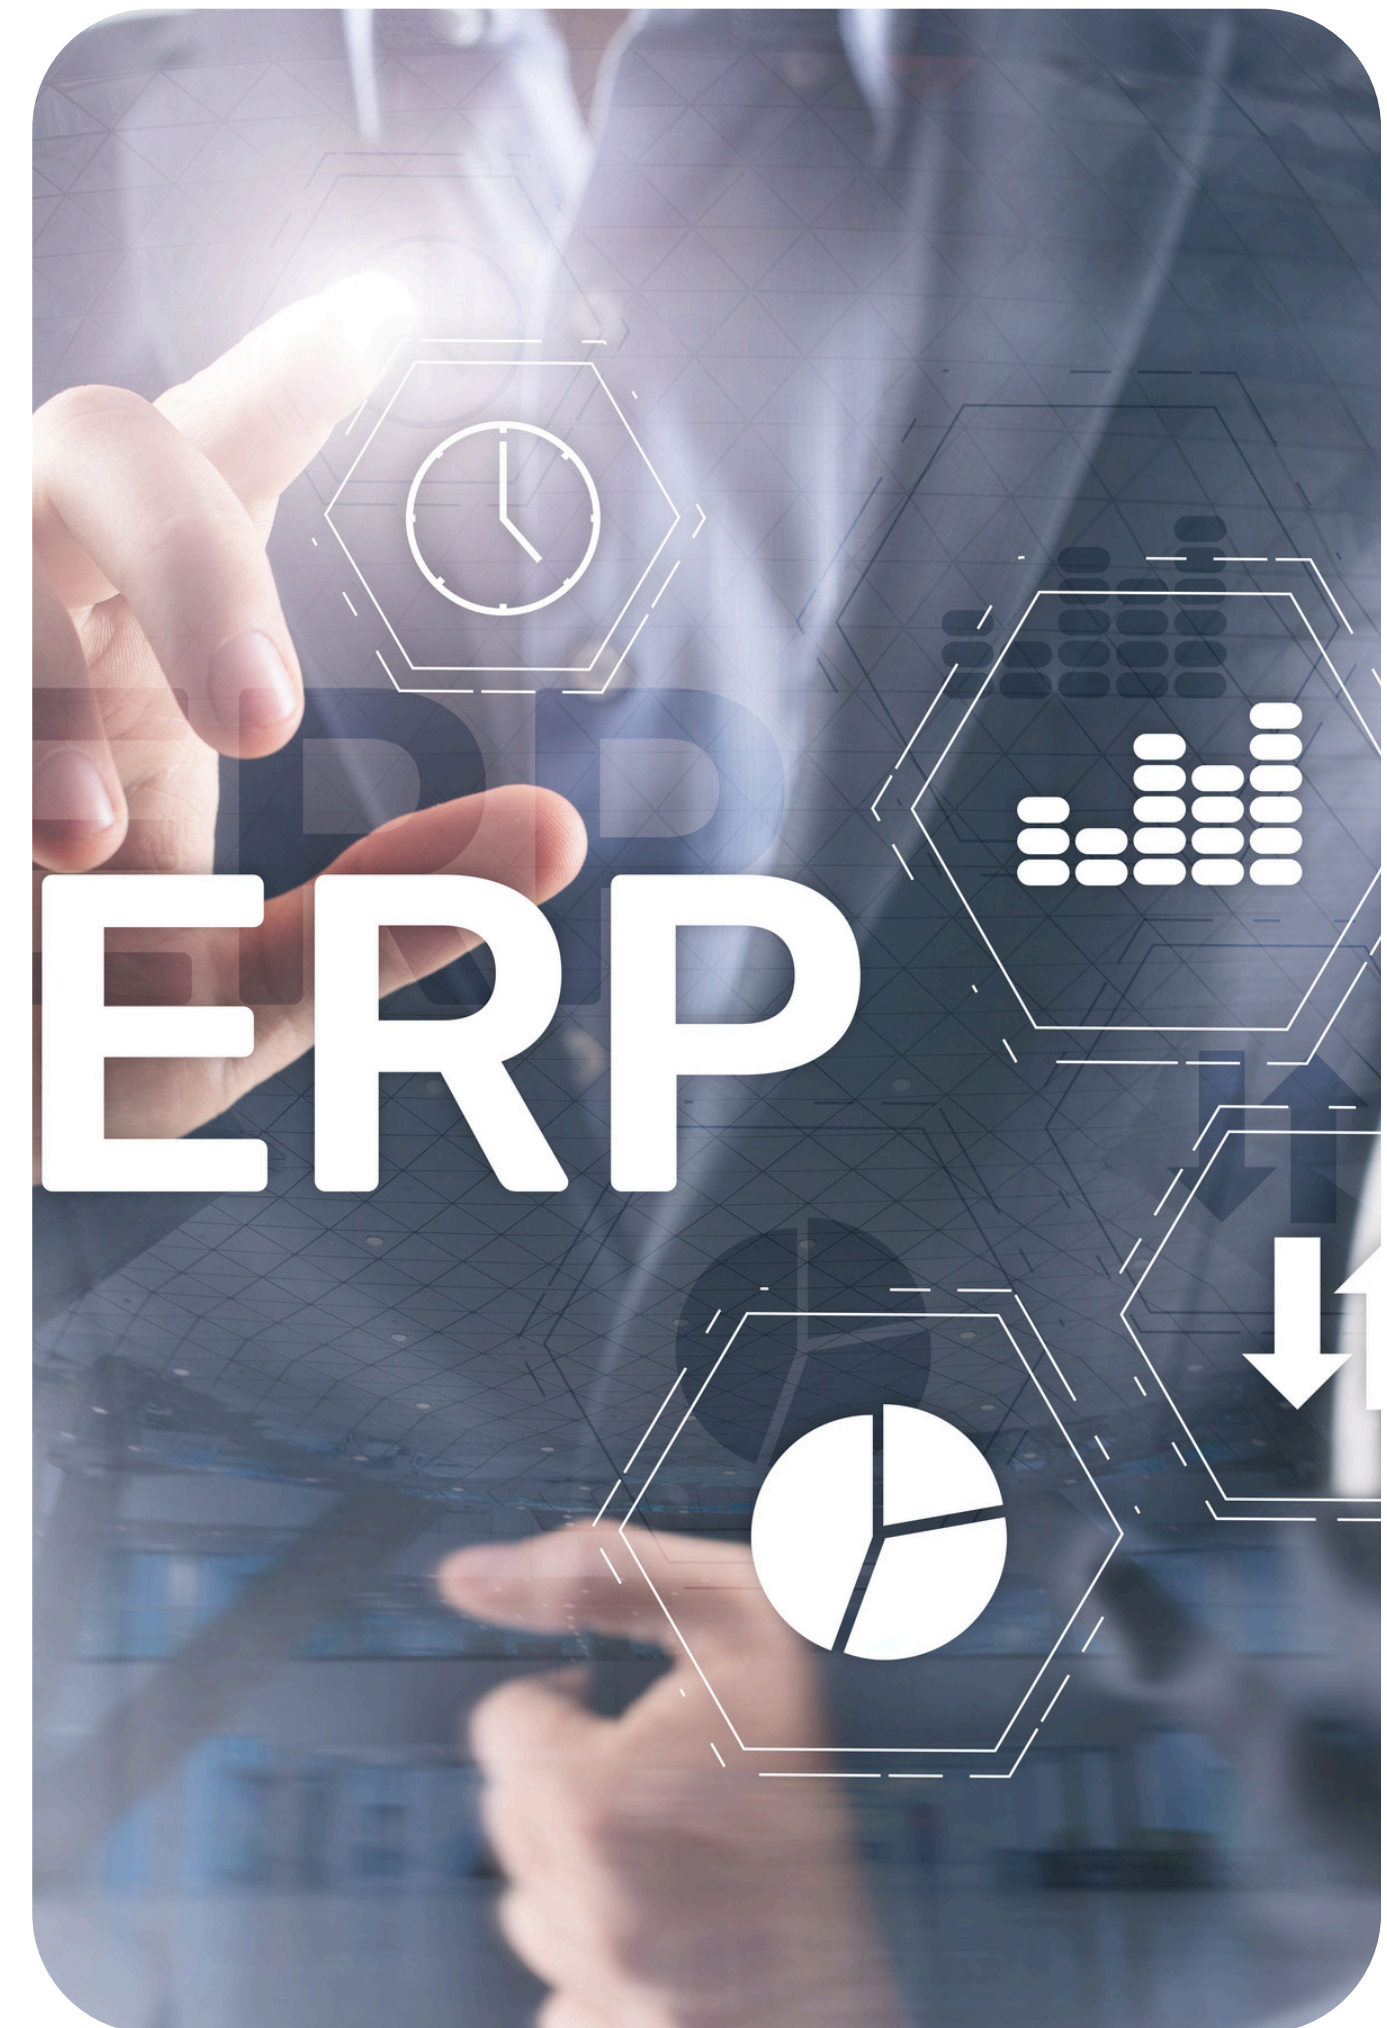

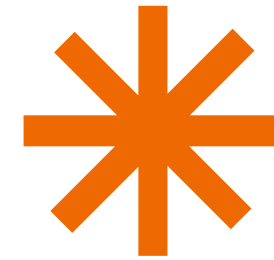

- Accounting: Journal entries, invoicing, year-end closing
- Human Resources: Attendance, payroll, performance evaluations
- Procurement & Suppliers: Quotations, purchase orders
- Sales: Invoicing, collections, customer follow-up
- Inventory: Tracking, stocktaking, alerts
- Smart Reports: Performance and cost analysis

🛠 Technologies Used:

- PHP + MySQLi + Bootstrap + Ajax
- RBAC permission system – Cloud storage & backup

📈 Benefits:

- Improve efficiency by 35%
- Reduce errors
- Enhance transparency and governance

JO3AAN DELIVERY

SYSTEM

📌 Overview:

"Jo3aan" is a food delivery app that connects customers with restaurants and delivery drivers through a smooth, locally tailored user experience.

🔄 System Components:

- User App: Order placement and real-time tracking
- Driver App: Order pickup and delivery with map integration
- Restaurant Dashboard: Order management and sales analytics
- Central Admin Panel: Full control with detailed statistics

💡 Advanced Features:

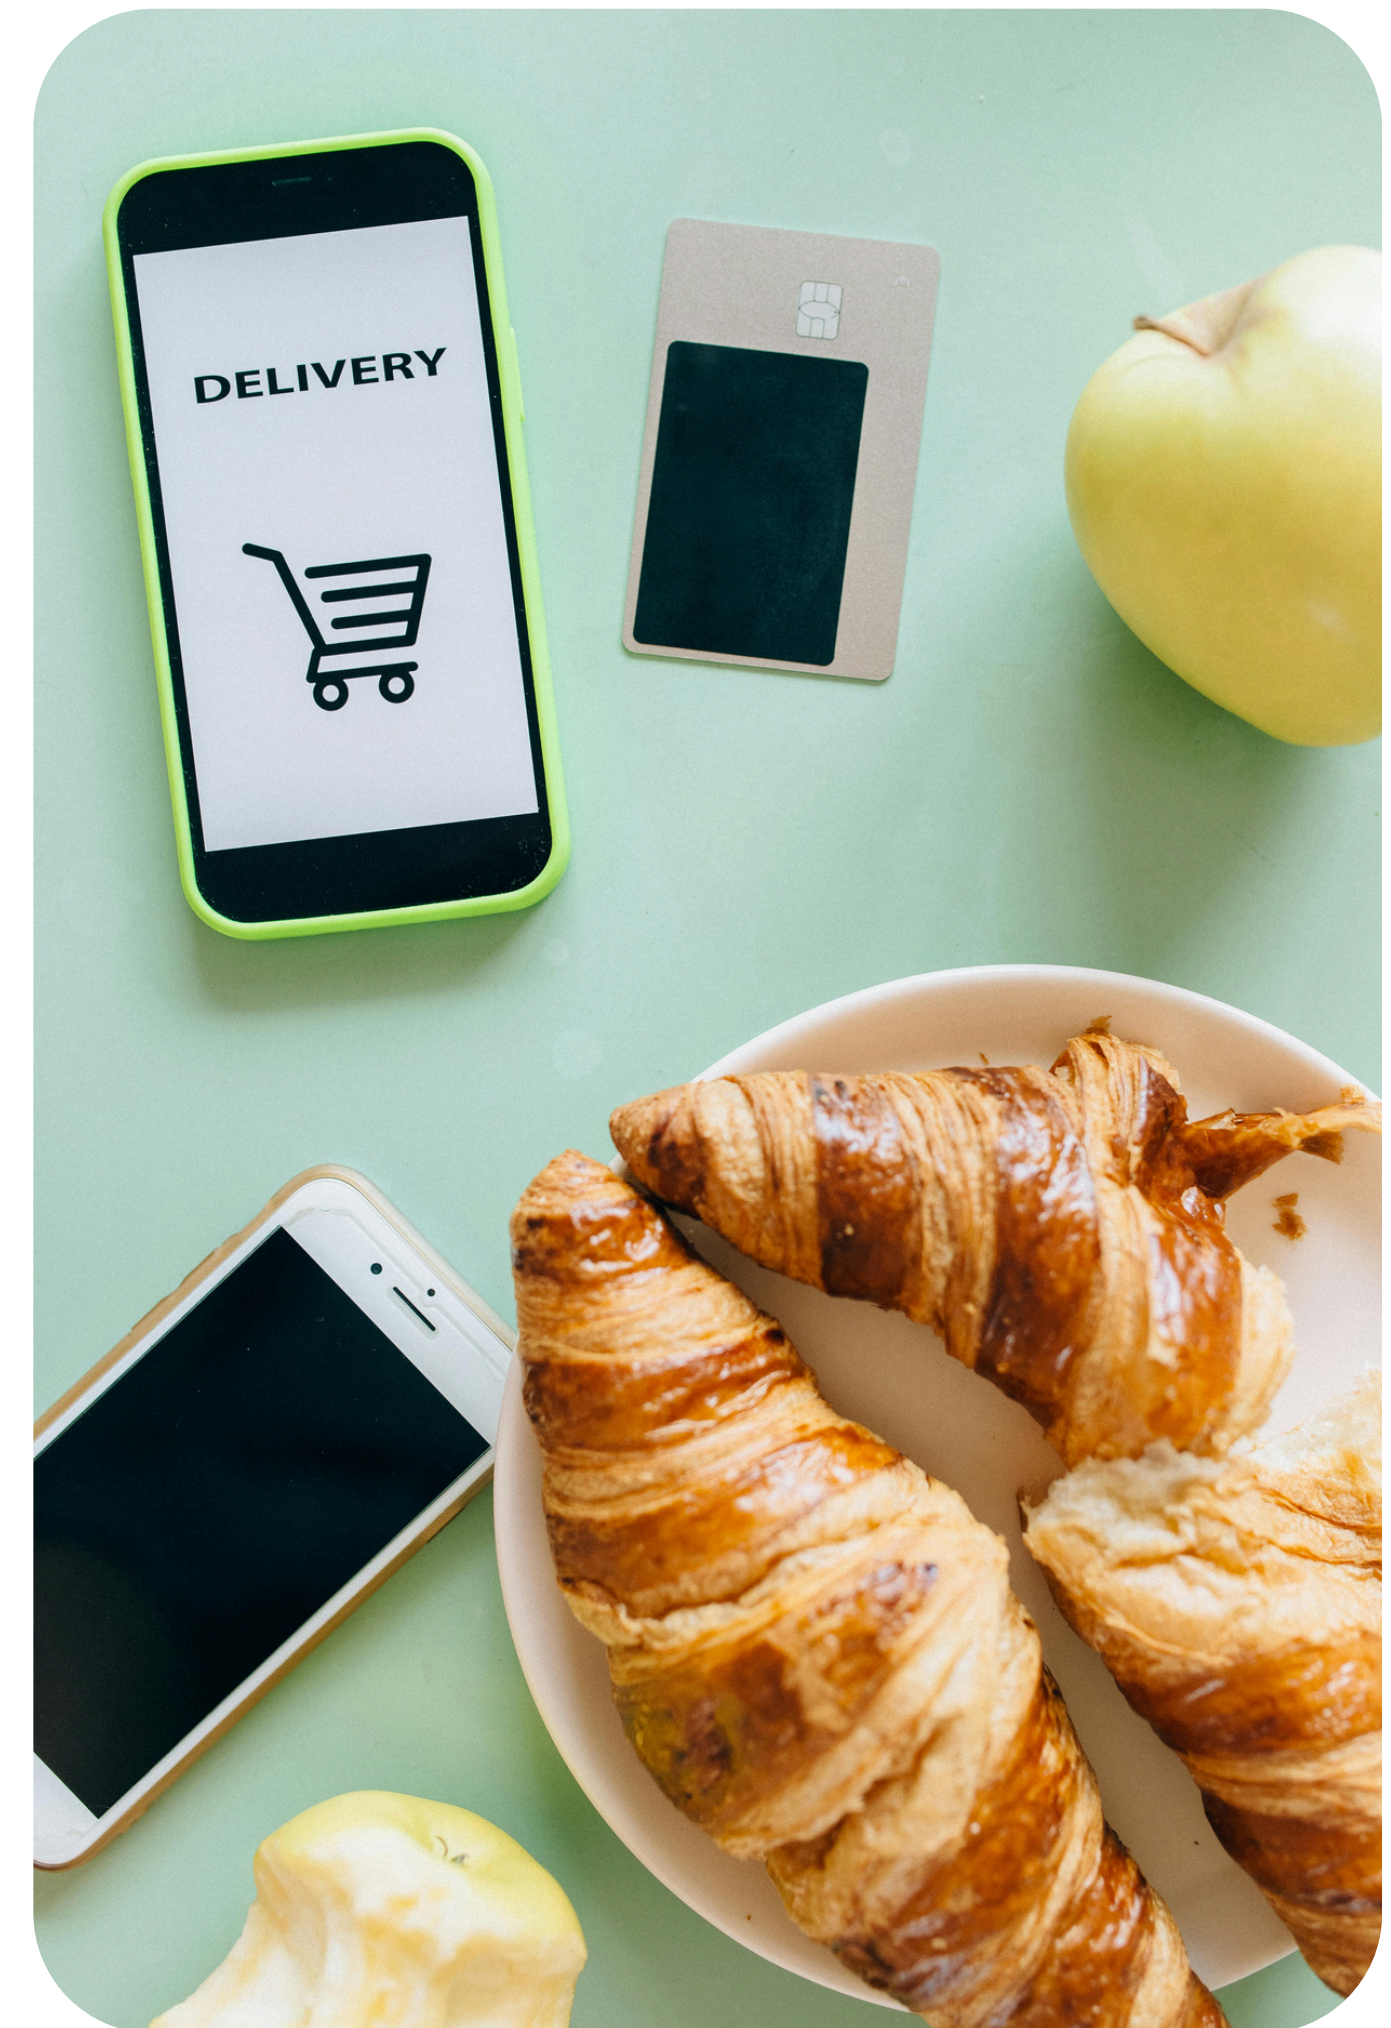

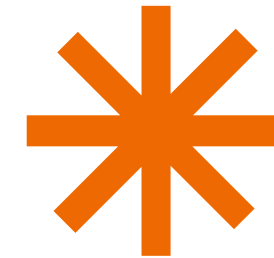

- Customer and restaurant ratings
- Online and cash payment options
- Instant push notifications
- Smart discounts and offers

🔧 Technologies Used:

React Native – Laravel API – Firebase – Google Maps – Modern UI

📊 Results:

- 42% reduction in delivery time
- Increased customer loyalty
- Full Arabic and English language support

ONLINE LAW FIRM SYSTEM

📌 Overview:

A specialized system designed for lawyers and law firms to efficiently manage legal cases, documents, sessions, and daily legal tasks with high confidentiality.

🔑 Key Features:

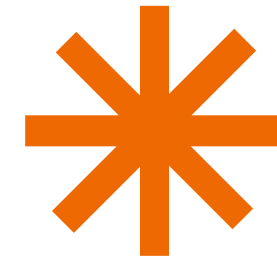

- Create and track cases by type and date
- Smart archiving of contracts and legal documents
- Comprehensive calendar with session alerts and reminders
- Generate professional, printable legal reports
- Link cases to clients and payment records

⚙️ Technical Stack:

- PHP 8 + MySQLi
- Advanced role-based access control (Lawyer – Clerk – Admin)
- TCPDF library for generating legal documents

📈 Impact:

- Streamlined legal workflow and reduced paper dependency
- 70% improvement in case tracking efficiency
- Simple interface accessible via mobile or browser

ASSESSMENT OF FOREIGN AIRCRAFT SAFETY SYSTEM

📌 Overview:

A regulatory electronic system tailored for civil aviation authorities to record and monitor inspections of foreign aircraft in compliance with international standards (ICAO / EASA). It serves as a primary tool for enhancing air safety oversight.

📋 Core Functions:

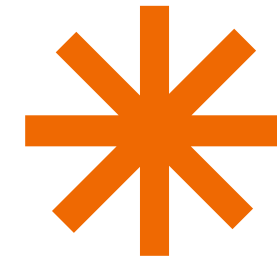

- Register aircraft details and inspection team information
- Generate custom inspection forms based on aircraft type
- Assign violation severity and produce detailed reports
- Manage inspector tasks and link them to airports
- Track Corrective Action Plans (CAP) and follow-up decisions

📊 System Reports:

- Real-time dashboard for daily flight monitoring
- Annual performance reports for airlines
- Alerts for critical violations

⚙️ Technical Stack:

- PHP + Bootstrap + DataTables + Ajax
- Advanced data encryption + large-scale database
- Integration with cloud-based government systems

SMART SCHOOL MANAGEMENT SYSTEM

📌 Overview:

A smart, all-in-one school management system covering student registration, fee collection, and academic tracking—accessible via desktop and mobile.

👤 User Panels:

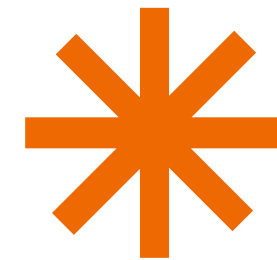

- Admin: Manage school, staff, schedules, and attendance
- Teacher: Create lessons, record grades, assign homework
- Student: Access courses, download materials, submit tasks
- Parent: Monitor performance, pay fees, contact school

✅ Smart Features:

- SMS/Email alerts
- Auto grading & certificates
- Attendance tracking with parent notifications

💡 Tech Stack:

- HTML5/CSS3 + PHP + MySQL
- Bilingual (Arabic & English) + Payment gateway integration

E-QUALITY MANAGEMENT SYSTEM

📌 Overview:

A comprehensive electronic system for managing quality in organizations based on ISO standards, helping document processes, monitor performance, and boost operational efficiency.

🔄 Core Modules:

- Process and form documentation
- Internal audits and observations
- Non-conformance tracking and corrective actions
- KPI dashboard and periodic reports

💡 Key Features:

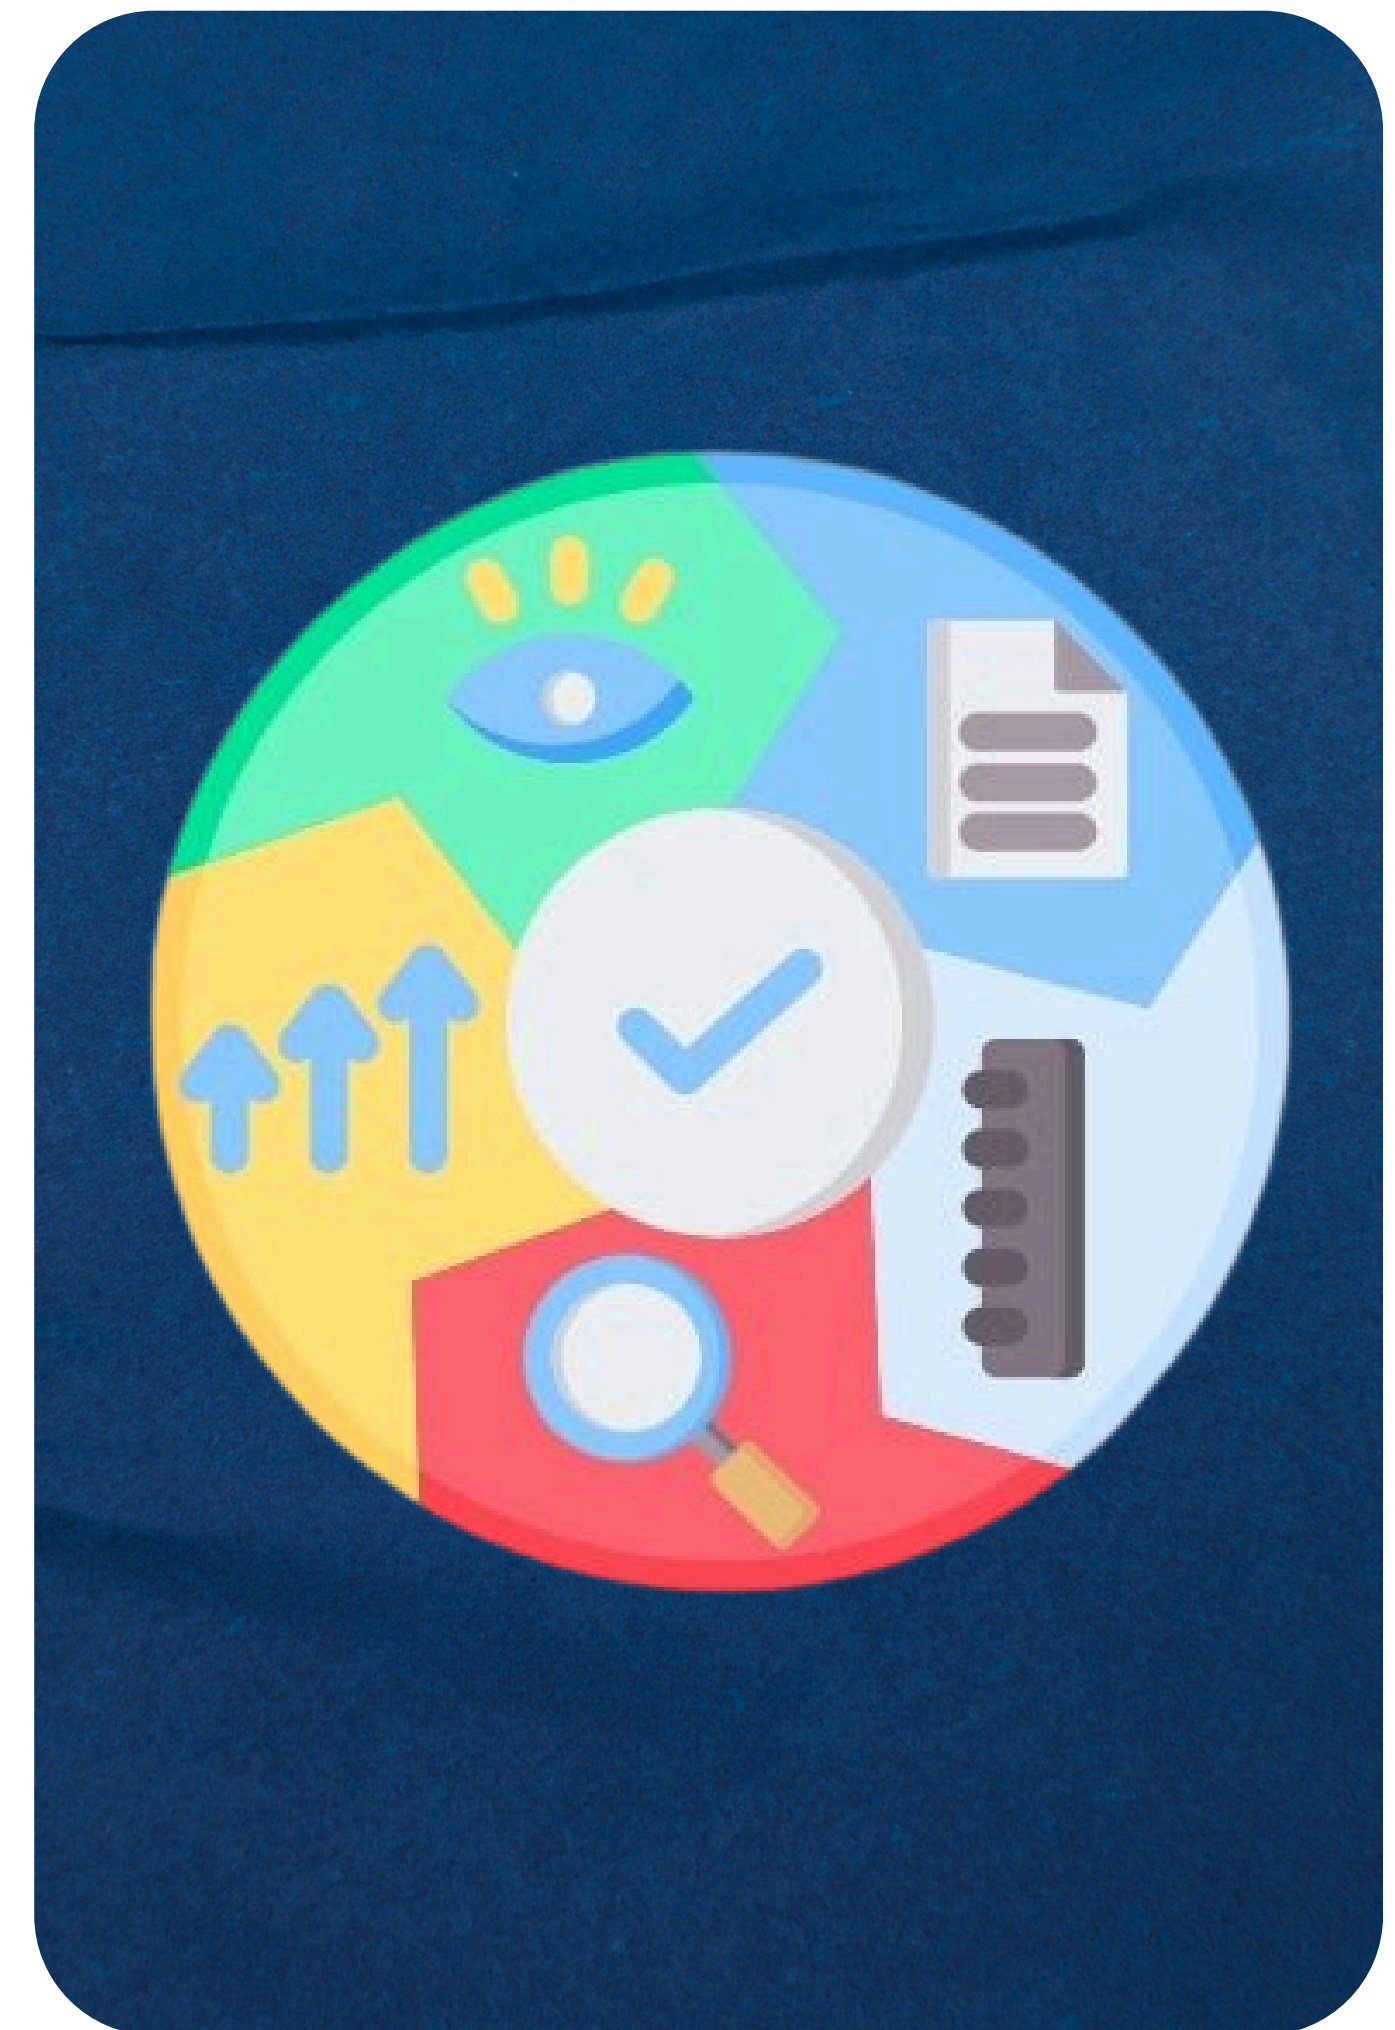

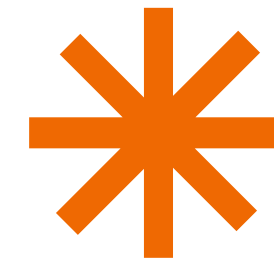

- ISO 9001 support with flexible customization
- Interactive reports and charts
- Multi-level access control
- Smart alerts and auto-notifications

🔧 Tech Stack:

PHP – MySQL – Bootstrap – jQuery – Animate.css

📊 Results:

Improved quality compliance and faster, more efficient audits

RAQMIYYAT STORE - DIGITAL PRODUCTS MARKETPLACE

📌 Overview:

A professional digital platform for selling digital products, designed to help creators showcase and sell their work easily online.

🛍️ Products:

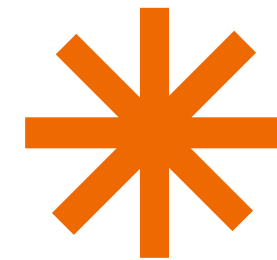

- Canva, PSD, and HTML templates
- Developer tools: scripts, plugins
- Mini-courses and digital guides
- Design, editing, and marketing services

💰 Store Features:

- Direct buy & shopping cart
- Multiple payment gateways (Cards, STC Pay, USDT, Tap)
- Product pages with images and details
- Auto discounts and coupon system

⚙️ Tech Stack:

- HTML, CSS, Bootstrap, PHP, MySQLi
- Carousel + SweetAlert + TCPDF for auto PDF invoices

SMART AFFILIATE MARKETING SYSTEM

📌 Overview:

An all-in-one affiliate system for tracking performance, managing commissions, and boosting digital product sales.

🔄 Main Modules:

- Affiliate & Merchant dashboards
- Multi-level referrals with auto payouts
- Real-time stats and withdrawal management

💡 Features:

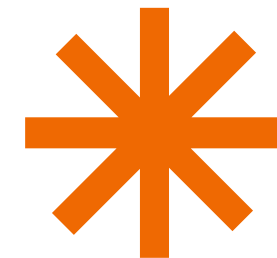

- Instant tracking, loyalty rewards
- Multi-currency & payment options
- Simple, professional UI/UX

🔧 Tech:

PHP – MySQL – JavaScript – Bootstrap – SweetAlert

📊 Impact:

Higher sales, stronger affiliate network, smarter marketing decisions
